Emergency Management Task Force Annual Report for 2010

2010 ACTIVITIES

The main priority of the EM Task Force was to work with the new Disability Coordinator at FEMA. Marcie Roth was appointed in the spring by Director Fugate to be the lead on emergency preparedness for people with disabilities.

The Task Force met on two occasions with Roth to monitor the development of resources in FEMA for people with disabilities. At the last meeting, Roth announced an MOU with NCIL and a pending MOU with NDRN. Also her office has been increased by 5 staff and 10 regional disability coordinators are being appointed.

Several members of the Task Force left their positions and the Task Force will be recruiting new members after the Annual Meeting.

FUTURE ACTIVITIES

The Task Force reviewed legislation to mandate a structure at FEMA and will be following the legislation during the coming year.
